

A. AJAY

QA Engineer | Manual & Automation Testing

[9894774362](tel:9894774362) | ajayannadurai261@gmail.com | linkedin.com/in/ajayannadurai08 | [GitHub Link](#)

PROFESSIONAL SUMMARY

QA Engineer with hands-on experience in Manual and Automation Testing for e-commerce web applications. Skilled in coding, testing, and debugging, with strong knowledge of SDLC and STLC principles, test case design, functional and regression testing, and defect life cycle management. Experienced in writing automation test plans and building automation frameworks using Selenium WebDriver, Java, and TestNG with the Page Object Model (POM). Excellent communication and interpersonal skills, with a proven ability to identify critical functional and security defects and collaborate effectively with cross-functional teams to deliver high-quality software.

TECHNICAL SKILLS

Manual Testing: Test Case Design & Execution, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, System Testing, Integration Testing, User Acceptance Testing (UAT), Bug Reporting, Debugging, Defect Life Cycle

Automation Testing: Selenium WebDriver, Cucumber (BDD), Maven, Page Object Model (POM), Data-Driven Testing, TestNG, Automation Test Plan & Strategy Design

Programming & Database: Core Java, MySQL

Bug Tracking & Version Control: JIRA (Bug Reporting & Tracking), Git, GitHub, Microsoft Excel

Api Testing: Postman

Concepts: SDLC, STLC, Test Planning, Test Strategy, Test Documentation, Test Scenario Design, Design Specification Review, Bug Life Cycle, Severity & Priority Analysis

KEY PROJECTS

Manual Testing — Flipkart E-Commerce (Dell Inspiron 15 Laptop Module)

Tools: Microsoft Excel, Bug Reporting | Environment: Production — Chrome, Firefox, Edge & Mobile

- Designed and executed 163 manual test cases across 10 modules — Login, Registration, Search, Product Page, Cart, Checkout, Account, Wishlist, Comparison, and Admin Panel — applying SDLC and STLC principles throughout.
- Identified, debugged, and logged 10 defects, including 6 Critical-severity issues: incorrect cart total calculation, missing pincode validation at checkout, an XSS vulnerability on the login page, and checkout served over HTTP instead of HTTPS.
- Documented each defect with steps to reproduce, expected vs. actual results, severity, priority, and environment, ensuring clear, high-quality developer hand-off.

Automation Testing — Contact Us Page, SCENT-Arts Website (Internship Project)

Tools: Selenium WebDriver, Cucumber (BDD), Java

- Wrote automation test plans and BDD test scenarios in Gherkin syntax, defining the test strategy and test cases used to validate form validation, navigation flow, and submit functionality on the Contact Us page, per design specifications under the guidance of the project lead.
- Performed positive and negative testing and debugged script and validation issues to verify field-level validations and error messages across all input fields.
- Implemented reusable step definitions following BDD best practices, improving test maintainability and readability.

PROFESSIONAL EXPERIENCE

Production Editor — TNQ Tech Pvt Ltd

May 2025 – May 2026

- Applied excellent communication and interpersonal skills to coordinate with authors, editors, and internal cross-functional teams, ensuring a smooth publication workflow and consistently meeting production timelines.
- Reviewed and verified content for accuracy and consistency at each production stage, identifying and debugging discrepancies before final sign-off — a process closely aligned with defect identification and quality checks in software testing.
- Managed high-volume editorial communication via Gmail using labels, filters, and priority settings, improving tracking efficiency and reducing turnaround time.

EDUCATION

M.Sc. Mathematics — Bharathidasan University, Trichy

B.Sc. Mathematics — Government Arts College (Autonomous), Kumbakonam

CERTIFICATIONS

- Software Testing Certification** — Inmakes Infotech Pvt Ltd
- Java Certification** — Cadpoint
